Niruta Kadel

Banasthali, Kathmandu kadelniruta@gmail.com +977 9860682226 niruta-kadel Kadelniruta

Career Objective

Results-driven Software Developer with hands-on experience building scalable web and mobile applications using Flutter, Python, Supabase, and modern AI technologies. Strong foundation in software engineering principles, with a particular passion for AI-powered features, clean architecture, and impactful digital products.

Education

IIMS, Naxal, Kathmandu *Aug 2022 - Aug 2026*
Bachelor of Computer Science - BCS (Hons.)

- University: Taylor's University
- CGPA: 3.82

Secured the Dean's List Award and was awarded the Academic Excellence Scholarship for three consecutive years (Years 1–3) in recognition of outstanding academic performance.

Bageshworee Secondary School, Malekhu, Dhading *2018 – 2020*
Plus 2 (Higher Secondary Education)

- GPA:3.46

Bright Future English Boarding School, Malekhu, Dhading *2018*
Secondary Education Examination (SEE)

- GPA:3.75

Professional Experience

Software Developer Intern *Jan 2026 – Jun 2026*
Lumica Labs Pvt. Ltd., Mid Baneshwore, Kathmandu

- Shipped features end-to-end across a production Flutter and Supabase application serving real users.
- Owned backend logic for authentication, notifications, and AI features using Supabase Edge Functions and third-party APIs.
- Wrote and maintained unit and integration tests; participated in code reviews that improved overall code quality.
- Took end-to-end ownership of security-sensitive flows including user authentication and transactional email workflows.
- Collaborated cross-functionally with product, design, and engineering teams to deliver high-quality user experiences.

AI & Machine Learning Tutor *Mar 2025 – Sep 2025*
Engineers Vlogs, Kathmandu

- Delivered practical training sessions on Python, Machine Learning, and AI fundamentals to groups of learners.
- Guided students through hands-on projects and model development workflows.
- Mentored learners in debugging, experimentation, and systematic problem-solving techniques.

Projects

Styliq – AI-Powered Wardrobe Management Platform *Jan 2026 – Jun 2026*
Technologies: Flutter, Supabase, Next.js, Gemini API, OpenWeather API, Supabase Edge Functions

- Designed and built a full-stack AI wardrobe app with OOTD suggestions, outfit builder, and wardrobe organisation, from architecture to App Store-ready deployment.
- Engineered a personalised recommendation engine using vector embeddings and cosine similarity, enabling

context-aware outfit suggestions.

- Fused OpenWeather API data into the recommendation pipeline for real-time, weather-aware outfit filtering.
- Built a conversational AI styling assistant using the Gemini API with wardrobe-context injection for personalised guidance.
- Architected OTP-based account deletion, FCM push notifications, and transactional email using a serverless Edge Functions layer.

RecipeShare – AI-Powered Recipe Management Platform *Nov 26, 2025*
eSewa Ltd. Career Climber Program (Group Project)

- Co-designed a hybrid recommendation system using **ALS (collaborative filtering)** and a **Two-Tower Deep Learning model (PyTorch)** to generate real-time personalized recipe suggestions.
- Implemented hybrid re-ranking logic integrating **social boosts, content similarity, and popularity signals**, enhancing recommendation relevance and user engagement.
- Performed API and system load testing to validate the scalability and reliability of the recommendation infrastructure under production-like conditions.
- Delivered ML model features following agile team workflows and mentorship guidance on production-ready ML practices.

Fake Product Review Detection & Sentiment Analysis *July - Dec, 2025*
Final Year Capstone Project — IIMS College (Taylor's University)
Technologies: Python, BERT, Flask, Scikit-learn, NLTK, TF-IDF

- Built a machine learning system to detect fake product reviews and analyse customer sentiment at scale.
- Fine-tuned BERT and benchmarked multiple classification models, achieving approximately 89% accuracy.
- Developed a complete text-processing pipeline and exposed predictions via REST APIs, and implemented sentiment classification for granular review insights.

Skills

- **Mobile Development:** Flutter, Dart
- **Backend & Web:** FastAPI, Flask, Django, Next.js, REST APIs, Supabase
- **AI & Machine Learning:** PyTorch, TensorFlow, Scikit-learn, Hugging Face, Vector Embeddings, Recommendation Systems, Gemini API
- **Databases:** PostgreSQL, MySQL, Oracle, Supabase Database
- **Data & Analytics:** Pandas, NumPy, Apache Spark, Power BI, Matplotlib
- **Tools & Platforms:** Git, GitHub, Docker, Jira, Firebase Cloud Messaging (FCM), Mailtrap, OpenWeather API
- **Soft Skills:** Problem Solving, Team Collaboration, Communication, Leadership, Presentation Skills

Training/Certification

eSewa Ltd. – Career Climber Training Program *May 2025*

- Industry-focused training covering software development, machine learning systems, REST APIs, SDLC, DevOps fundamentals, and AI integration.

Python with AI – Professional Training (80 Hours) *Dec 2024 – Feb 2025*
Broadway Infosys — IIMS College

- Intensive training in Machine Learning and Deep Learning with practical model development and evaluation.

Leadership & Campus Involvement

SSCC Member – Computer Science Representative *Jan 2023 – Present*
IIMS College, Kathmandu

- Represented Computer Science students in faculty discussions and academic initiatives.
- Facilitated communication between students and administration.
- Contributed to academic feedback processes and student engagement activities.
